Bikes

The Hungarian government has invested in the bicycle paths along Lake Balaton, so cycling in this region is very accessible. The dedicated cycle lanes around the lake are well marked. Cycle routes are characterized by gentle rises or flat terrain on the safe and quiet paths. Some cycling will occur on roads with little traffic. The lake is an obvious attraction for cyclists. Summer is a good time to visit – temperatures are warm, making a swim in the clear, blue lake very pleasant. Do not forget that the hotel lies directly on the bike route. We can arrange bikes for you to the hotel and help you organise your tour with options..

Geocaching

Geocaching is a GPS-fueled real-world treasure hunt that can take place nearly anywhere. It is a collection of geocaches that take geocachers on a tour of a specific area. They can be along a trail, through historic sites, in a park, and even in the middle of an urban area. At each stop, you can introduce family-friendly activities, inter-

esting facts, stories, and the best parts of your destination. There are millions of geocaches around the world, just waiting for you to find them. In fact, there are 18 geocaches within 8 km of the hotel. GPS equipment can be rented at the reception desk with free maps.

Siófok and Lake Balaton

About Lake Balaton and bathing

Lake Balaton is the largest lake in Central Europe, it has wonderfully warm and limpid waters, but the southern shore of Lake Balaton is extremely shallow – you can walk for hundred of meters and the water is still only waist deep. Great for children, and the ‘walk in the water’ is also a pleasant experience for adults. A huge plus is that the lake is only an hour away from Budapest on a highway.

Siófok

Siófok has been the center of summer recreation on the southern shore of Lake Balaton, Hungary for centuries. Its well kept beach stretching 17 km long is the longest beach and its port is the busiest around the lake.

Exciting night life, concerts, adventure sports add to the charm of Siófok. Thousands enjoy the warm water of the free beaches and the shady walkways along the Silver (Ezüstpart) and Golden Shores (Aranypart). Old but elegant villas of famous Hungarians (Mór Jókai, Frigyes Karinthy, Gyula Krúdy writers) and the stunning view of the Balaton Uplands on the opposite shore provide fine background to beach entertainment.

If you’ve had enough of spashing about and sunbathing take a walk along the Petőfi or Beszédes promenades.

The shallow water warms up very quickly during summer and the beaches along the southern Balaton are especially recommended for families with small children.

Siófok’s port is the busiest one on the southern shore of Lake Balaton.

Besides the beach the town of Siófok itself is worth exploring. Works of art by famous artists adorn its squares, and parks. Visit the 100 year old water tower or just enjoy shopping and strolling in the brand new city center.
